

## **Missouri Ethics Commission Releases *When to Form & Register a Committee* Brochure**

The Missouri Ethics Commission released the *When to Form & Register a Committee* brochure, designed to help identify actions that may require the formation and registration of a campaign finance committee. By answering three simple questions, individuals can determine if the money spent or received requires committee formation and registration.

The brochure contains other information and examples, established in law, of forming a campaign finance committee. To view the new brochure, click [When to Form & Register a Committee](#) or visit the Commission's website.

*Thank you,  
The Missouri Ethics Commission*
